

## AN ACTIVE CAMP IS AWAKENING

**SACKING ORE ON MURRAY-SCOTT PROPERTY—OTHER GOOD SHOWINGS.**

There is a general revival of mining activity at the camp of Awakening, says C. E. Carpenter, who is in Winnemucca from that section for a few days. He says that many of the owners who made locations last summer are now working on their holdings with gratifying results. In fact, says Mr. Carpenter, the district has taken on new life and there is a considerable population there at the present time.

There is every indication that the camp will be one of the live ones during the coming summer, for there are showings of ore there now to warrant the assertion.

One of the principal exposures in the camp, and deserving of particular mention, is that on the property owned by Murray Scott. His shaft is down to a depth of 102 feet and he is sacking high grade ore for shipment, besides piling a good deal of milling ore on the dump. He is fast demonstrating the permanency of the ore bodies in the camp and that they go down and carry the high values with them. The shaft which Mr. Scott is sending down was started last summer and is known as the Truett shaft. A feature of the property is that the ore is free milling with the values mostly in gold.

Mr. Carpenter is interested with E. H. Brown and L. G. Campbell of Winnemucca in what is known as the Bullion group of claims. He says that during the past month he made a very important discovery on their property and the ore assays \$116 in gold to the ton. The shaft is down about 15 feet on the ore body, and the ledge shows permanence as depth is attained. Mr. Carpenter says that there is another shaft down 90 feet at another point on the property that has good showings of ore.

R. M. Edmunds has purchased William Critchfield's interests in the camp and is arranging to start aggressive development on the property.

A. W. Lovell is busy doing development work on the Spanish Girl group of claims and is opening a good body of ore that pans well in gold.

M. Connors, who owns the Florence group of claims, is pushing work right ahead and has ore that pans good in gold.

At the property owned by Doc Dillworth, J. H. Wells and E. G. Miller there is an exceptionally fine showing of gold ore. The owners, who have just made a thorough sampling of the ledge, have resumed development on a more extensive scale and are now taking out ore for shipment. The vein is to be systematically opened and from present appearances the property will be on the shipping list for some time to come, for they have a large body of ore of the shipping grade.—Humboldt Star.

## GRAVE DIGGERS ORGANIZE CLUB

**BELGRADE, May 1.**—Finding the numerous burials, due largely to deaths caused by the sudden changes of temperature with the advent of spring, rather depressing, the Belgrade grave-diggers have formed a "Happy Evenings Club." Convivial weekly meetings are held to preserve the proper spirit of optimism.

### OLD NEVADAN VISITS.

Harry T. Cresswell, an old Nevada attorney, paid Yerington a short business visit last week. It was the first time that he had been in this part of the country for many years, and of course he notes many changes, and all for the better. Mr. Cresswell, when a resident of Nevada in the early days, was a member of the state senate from Nye county. This was in 1879. In 1886 he was a candidate for district judge on the democratic ticket, and did not come far from being elected. After going to San Francisco, where he is now located, he held the office of city attorney in San Francisco for more than five years, and finally resigned. He is a member of the legal firm of Garber, Cresswell & Garber, and, although Judge Garber long since passed away, the firm name still remains the same. Mr. Cresswell returned to San Francisco on Thursday.—Times.

## TO DETERMINE FISH QUESTION

**RIGHT OF INDIANS TO PEDDLE FISH OFF THE RESERVATION COMES UP AGAIN.**

**RENO, Nev., May 1.**—Whether or not the Indians on Pyramid reservation will be permitted to peddle fish in larger numbers and of greater weight than the prescribed limit will be determined tomorrow morning by District Attorney William Woodburn.

It has been the custom, under protest, for the Indians to bring wagonloads of trout from Pyramid lake and dispose of them about town.

J. D. Oliver, the Indian agent, is in town conferring with the authorities. He holds that Pyramid lake, being wholly within the reserve, is a private pond, such as Walts Brothers' and James P. Morrill's. If this contention is upheld, the Indians will have the right, provided they receive certificates, as is done by the pond owners named.

At all events there has developed a lively dispute and it may end in the courts. The feeling is especially bitter on account of the obstructions said to have been placed across the river by the Indians to prevent the fish getting up the river.

### TAFT DENIES STATEMENT.

**WASHINGTON, D. C., May 1.**—In replying to Senator Lodge's resolution, President Taft today sent a statement to the senate denying that the state department has any evidence adequate to show acquisition to land and the intention of a desire to acquire land directly or indirectly by Japan in Mexico. Secretary Knox signed the statement.

### CONTEST WINNERS.

The declamation contest held last evening at the Nevada theater between four girls and four boys of the high school resulted in Anna Critchfield and Thomas Dugan being declared the winners. These two will go to Reno and try and bring the laurels to Tonopah, when the state declamation contest occurs in that city on May 10th.

### WOULD MAKE MINIMUM WAGE FOR PASTORS \$1000

**BOSTON, May 1.**—A movement which aims to make \$1000 the minimum yearly salary of a clergyman in the Methodist Episcopal church has been launched here by Rev. Dr. Andrew Coulter, a member of the board of foreign missions and one of the superintendents of the Methodist church in New England. In support of his charge that preachers are sadly underpaid, Dr. Coulter declares that of the 101 churches immediately under his supervision, only twelve pay their pastors more than \$700 a year. Half the churches, he says, are paying far less than a living wage.

### DORR OBTAINS WRIT.

**STOCKTON, Cal., May 1.**—Attorneys for William A. Dorr, in jail here on the charge of murdering George E. Marsh at Linn, Mass., this morning secured a writ of habeas corpus from Judge C. W. Norton. The writ is made returnable in Judge Smith's court next Thursday morning at 9 o'clock. The usual grounds were allowed. The securing of the writ means that Dorr cannot be taken east until the matter is thrashed out in court. It is said that his attorneys feared an attempt would be made to get him out of the state without their having an opportunity to inspect the extradition papers.

### RAILROAD IS RENAMED.

**KLAMATH FALLS, Ore., May 1.** E. O. McCormick, vice president and traffic director of the S. P., has issued orders to refer to the road being built from Eugene, Ore., to Weed, Cal., as the "Klamath Falls cut-off" instead of the "Naton cut-off."

### WOMAN POISONS FAMILY.

**ST. PETERSBURG, May 1.**—A woman has been arrested at Yekaterinoslav on her own confession that she poisoned several members of her family who were consumptive, to spare them needless suffering.

### CONSOLIDATED AUTO COMPANY.

### MANHATTAN MINER

HAS GONE INSANE

Tony Brizzora, who was brought in from Manhattan last week and placed in the county hospital, grew violently insane yesterday and was removed to the county jail. Dr. Richards, a member of the insanity commission, stated that the patient would, in all probability, be examined before the district court on Friday.
